WORK EXPERIENCE

UX/UI Designer Jun 2019 - Present
Idea Theorem
• Worked independently on various UX/UI projects, strategizing and producing UX assets for enterprise and startup businesses
• Executed unmoderated usability tests, evaluating results and translating them into insights for further design improvements
• Conducted in-depth UX audits for a municipal website and a mobile app and provided recommendations to improve the visual design and user experience
• Collaboratively ideated and re-designed a portal for an enterprise level laboratory testing services company, attentively using the WCAG accessibility guidelines

PROJECTS

UX/UI Designer And Front-End Web Developer Sept 2019 - Present
CustomHighze Web App
• Contributed to the successful acceptance into Sheridan College's entrepreneurial incubator program in order to gain mentorship and lay the business foundations of the company
• Heavily involved in the design process such as conducting user research to validate the product idea and creating the overall visual design and brand
